

ILLUMINATION MACGUFF

JOB AD: GRAPHIC DESIGNER

ABOUT THE JOB

- Design visuals for posters, products packaging, magazine covers, shop signs, user interface designs (control rooms, dashboards, etc...) that appear in the sets of animated feature films currently in production.
- Harmonize drawing, typography and color within the design to create a ready-to-use image.
- Think creatively and propose funny, striking and original concepts, graphics and layouts, to enrich the visual content of the film while remaining faithful to the artistic spirit of the film.
- Adapt to the period of the films, whether it is old designs or modern designs.
- Work closely with Art Director and Directors

MUST HAVE

- Strong artistic skills in design, drawing, painting, perspective and composition.
- Advanced software skills in Photoshop
- In-depth knowledge of typography, characters' anatomy and color science is required.

NICE TO HAVE

- Knowledge of basic animation and visual effects using After Effects
- Knowledge of Illustrator
- Background in art history

ABOUT YOU

- French and/or English knowledge is required.
- Good communication skills and ability to take notes and direction.
- Ability to work within a team, prioritize tasks and meet tight deadlines
- Remote work is possible in the long term, but the position has to be filled primarily in Paris.
- Our preference is for European Union citizens or candidates with French work permit. Because the process of obtaining a visa is so complex and timeconsuming, foreign candidates with a significative experience will be the only ones considered, for a selection of senior jobs.

ABOUT US

Illumination Mac Guff is the leading studio for animated films in Europe.

Based in Paris, the studio is know for its blockbusters such as the franchise "Despicable Me", "Minions", "The Secret Life of Pets" and "Sing" – all produced by Illumination Entertainment for Universal Pictures.
